1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. On p. 1, line 3 of the specification, "(Patent No. 6,797,215)" has been inserted after "September 27, 2001".

b. On p. 7, line 22 of the specification, the line now reads:

"United States Application Patent Nos. 08/299,286, now abandoned, and 08/299,287 (Patent No. 5,952,065) eliminate adhesive".

2. Claims 105, 129-134, and 184-186 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. The closest prior art, Mitchell et al. (US 5,952,065), discloses cushioning devices made from flexible membranes comprising at least one thermoplastic urethane layer and at least one ethylene vinyl alcohol copolymer layer (EVOH). Preferred gas transmission rates for the membranes are less than 10 and most preferably less than 2.0. However, the reference does not teach a polyurethane layer that itself has the claimed gas transmission rate. For these reasons, it is the examiner's position that the claimed membrane comprising a polyurethane layer of a specified gas transmission rate provides a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
